A very pretty vase has as handles sporting paring. The rest of the decoration and the body of the wase itself are in keeping with the graceful lines of the fish.

A large eigar shaped vase in underglaze The Pinal county members of the Roses, big brown beetles, fire spitting dragons and delicate leaves and flowers, all in colors, are jumbled promiscuously on a mazarine blue ground. The effect, however, is

Rose jars are at present very much in demand. One handsome design simulates ite leaves borne aloft on twigs of gold. The background and body color is a Persian red at the bottom, shading off lighter toward the top, until the cover is an ideal "crushed

A monster flower pot is of peculiar olive color, shading off into lighter and darker effects. Starting at the bottom in a wicker work design, this soon gives way to scales, which continue to the top. On each side, in relief, is a flying dragon, and two balf human heads serve for handles.

Moorish rose jurs are in the shapes made familiar by pictures of eastern life. Splashed gold on cobalt blue background, and the in-tricate designs inseparable from the mind of the Moorish decorator on backgrounds in color combinations, which would never be risked by other decorators, are old and yet pleasing.—Jowelers' Weekly.

CURIOUS THINGS OF LIFE.

The marriage of a West Point, Ga., couple was solemnized in a boat on the Chatta-hooches river.

was found by an emyloye at the stables, who, upon returning it, was rewarded with the thanks of the man and the amount of his cab fare, 2s, 6d. While James Martin, a wealthy farmer of

McLuney, Perry county, O., and his son John were harvesting their machine got out of order and both men crawled under it to fix it. While in this position their horses became frightened and ran away, drawing the ma-chine over them and almost decapitating Having been in a trance for nearly two

years, Joseph Guilfoyle of Birmingham, N. Y., has just awakened from what appears to him to have been but the sleep of a night. His family knew him to be alive, of course, or, as the doctor put it, "in a catalepsy state." He was constantly under the care of

A curious custom that attracts the attention of strangers in Panama is the spectacle of native women walking along the street smoking long, slender cigars. It is the cus-tom of the women there to gather in the publie markets as early as sunrise to gossip and talk over affairs while enjoying their morning smoke. Their confabs take the place of a morning paper.

At Grand Rapids, Mich., the other day, an art Grand Rapids, arich, the other day, an applicant for a marriage license, misunder-standing the questions put to him, gave the name of his deceased wife as that of the lady he was about to marry. When he showed the license to his prospective bride her consternation was unmistakable, and the crestfallen groom-elect soon reappeared at the county building and had the mistake rectified.

A man applied for a pension at the Maine state agency in Augusta the other day, and, being asked on what ground he thought him-self entitled to a pension, answered: "Drunk-cuness." The astonished pension agent told him that pensions are only granted for disability contracted in the army, "I know that," said the applicant. "Drunkenness is my disability, and I contracted it in the

A rich Cuban planter has been kidnaped "Want to know how we fall?" said the beautiful, graceful woman. "Why, see, this way. First your knee, and then your and is in the hands of bandits. this way. First your knee, and then your hip, and then your shoulder, and you are down;" and the graceful figure was prone on the carpet with outstretched arms. Every fold of her lace drapery in the pretable place not m inch of her Wisconsin parties have commenced the raising of buffaloes for the sake of their During a recent hot spell in Tulare, Cal., very one who had a cellar rigged up a bed tiest possible place, not an inch of her ankle or gleam of the snewy skirts was and slept there. Five head porters in the lending Chicago visible and the falling has been as noise less and graceful as a butterfly's dip and

swoop down to the heart of a rose. Then, with a supple grace and quick, agile spring, she was on her feet in a second. 'In this way—sideways, you see," and with all a second. According to an official report just pub-lished thirty-two persons died of starvation in London during the year 1887. with a dip and curve and sweep of the There were 90,621 paupers, besides lunatics and vagrants, in the 2,815,000 inhabitants of London in the first week of July. lace draperies, down she floated as swift and neiseless as a swallow's downward sweep, and she lay apparently lifeless, with her face hidden. Another little spring and she floated backward into a chair so limp and faint that even the smile on her lips hardly reassured you The New York and New Jersey watering places are said to resemble Karnak this sea son. There is a "goneness" about them that that it wasn't an actual sudden faintness. "We are taught in the schools, and

"We are taught in the schools, and practice on a rug at home first, you know; and of course we get many bruises while learning. We fall first to the knee and then to the hip, the shoulder, and down. Of course we do this very slowly at first and awkwardly, but we do it over and over again until one fail blends into the other so completely that you cannot distinguish it. Oh, yes, it is hard at first, but all there is to it is to take all the will out of your body and collanse. Make will out of your body and collapse. Make your muscles involuntary and inspired with the part you are playing, so that at the proper time you will fall almost un-consciously, and then you won't be hurt. Our prompter fainted the other night, and fell and hurt himself very badly. Now, I could fall in a faint a hundred times and not be hurt—you see my fall is an unconsciously mechanical action. You go into a familiar room in the dark and go into a familiar room in the dars and your body will unconsciously take the right direction to avoid coming in contact with the objects in the room, so my body takes the mechanical curve and poise requisite to avoid a hurt without my thinking anything about it if I make myself perfectly inert—give myself all un you know.

up, you know.
"I have been hurt several times. Those old fashioned sloping stages were treacherous rifairs, and very often when playing on an unfamiliar stage we were hurt. I remember going down bang on my nose triumphs of modern engineering. -almost broke it. Everything was dark for a minute, and then there flushed out all the constellations known to man, and several more that haven't been dis-covered, but I went on with my part and no one knew. Then I had another fall that made my hip black all over—thought police court on a charge of this kind. that would never get well, for I had to fall on it every night, no matter how it hurt.

'Are we afraid of being hurt? Oh, no. We are constantly in danger. Great heavy things are hanging over our heads that, The paper money of Chill is so depreciated in value that a guest at a hotel ordinarily if some stage carpenter shall blunder or some piece of machinery break, would come down and make short work of us. I and a heavy fron bar fall not four inches is a strange story. from my face once, and a man cut my forehead with a dagger, and other people have accidents, but we don't think any-thing about them after it is over. Like nervous people on shipboard fancy before they sali that they are going to think of their danger all the time, but two days out they will forget all their fear and feel as safe as on land. So we throw our-selves down on the boards and roll of softes down on the coards and roir on sofas and down terraces and out of chairs, knowing we might break our bones, but never thinking of it. No one ever did such a fearfully dangerous thing as that Miss Fetter, though. It seemed atrange the papers didn't speak of it before, for it interpreted for her to endergo her interpreted for her to endergo her. just seemed cruel for her to endanger her her health and even her life just to make

decorations in colored enamel, are very attractive. The neck is in openwork finish, the patterns being in the conventional Greek border designs.

Decorated with faney floral designs in two colors, and further embellished with elinging vines in different shades of bronze, are some excellent specimens of faience. This ware is an exact a worder at the fall is just as mechanical. People only watch the pretty curves and grace for sweep of a woman's drapery, and do not see the necker is supply. not see the mechanical studied action underneath. We float down very grace-fully, but the fleating is done as accu-rately as a problem in geometry."—New

Not a Life of a Luxury. Oh! I have had so many non-professignal people go into ecstasics over our calling in life. Perhaps you think it a life of larger. Well, it is not. There shake it off. "I have been walking around are rehearenls and study and sewing and are rehears and study and sewing and a hundred other trying exercises that keep you busy till you haven't time to write a letter home. Principals in a company are always the envy of a chean girl, and we go on calculating just when you tank that is written about our heart romances picked is the merest bosh. Some of us are mar-ried and support husbands—that is, some chorus girls—but not any in our com-pany, and most of them have tender attechments in the company who will not permit a dude to get closer to us than a hundred yards. I wish some of the young ladies who are sighing to be chorus girls could see us at home, over our gas stoves, could see us at home, over our gas stoves, cooking frugal meals, or sitting for hours darning holes in our tights. I don't think after one little experience of this kind the ladies would care to undergo another. Let me tell you the truth: the chorus girl's lot is not so happy as it seems to be—not by several jugfuls.—Chorus Girl in Globe-Democrat.

England's Leathery Sandwiches. Railway refreshments in England are proverbisily dear and bad, but they are certainly getting worse. The sit down meal is respectable, and the plates of eggs and cold meats are entable, but the buns and sandwiches (and there is, or would be, an immense bun and sandwich public) are simply atrocious. As a rule, everything under a glass cover is stale. Is it possible that the great firm which contracts for so many of our railway stations can be hooches river.

An Englishman recently lost a purse containing \$3,500 at a London carriage sale. It is the public? Why do not they appoint the calculate they appoint the calculate the containing \$1,500 at a London carriage sale. on the public? Why do not they appoint periodical inspectors, charged to taste the wayside buns, etc.? Perhaps no one can be got to do the tasting in the present state of affairs. It would be no light ordeal. Anyhow, the sandwich market is simply being rulned for want of a little butter, mustard and fresh bread. The two penns candwich to a fraud-dry and two penny sandwich is a fraud—dry and tasteless—while the bun is altogether leathery.—Pall Mall Gazette.

"Is it a good, lively one?"
"Well, it was used for a hearse horse "Send it up at once, and name your price."—Lincoln Journal.

A Check to Untruthfulness.

Will you smile if I say that I believe the study of science will help make a child truthful? The habit of lying usu-ally begins in an unchecked course of exmade by a well known author. He has got a sight of the recipe used by the Em-press Josephine as a means for rendering her "beautiful forever," and to which she aggeration-the result of an over vivid imagination. In science there is legiti-mate use for even the boldest imagination, but always, at every step, the most careful distinction between fact and fancy, and a niceness of discrimination in

shades of meaning entirely unknown in

the other fields of study.—Frances Fisher

Height of European Soldiers. It has generally been believed that the reduction in average height of French soldiers which followed Napoleon's wars, due, of course, to the immense slaughter in those campaigns, made all of those soldiers the shortest in Europe. But, according to a high medical and military authority in Russia, the minimum height of the Russian and the French conscript is about course, five feet, while in most is about equal—five feet; while in most other European countries the minimum res from five feet one inch to five feet

New Theatre Curtain.

three inches.—Boston Budget.

A new theatre curtain is made of canvas with a backing of spongy asbestos. It is kept wound on a roller in a trough of water beneath the stage.

For every more my arrows have maken safety. Or everyed aside, or overshot that mark Far set, whose circles center but in truth, This the desire—the one unfading dream—The hope of my young manhood—so to stand, 85 aim, so loose the tense expectant string, That, at the last, each winged shaft may fly Unto the heart of truth unerringly.

Yet—though I soothe the sting of ill success With thoughts of error, lurking in the grass, Nursing a wound some wide flown dart has given—
A fear dwells ever at my inmost soul, That, haply, ere my growing skill has won The prize—perfection—I may feel the bow Break at full bend, or hear its worn cord part,

Or find the quiver empty at my belt.

—Charles Henry Luders in Lippincott's.

Here is my way of blocking paper for desk use: I take a pile half an inch or less in thickness of paper cut to one size, place a heavy weight on top close to one edge of the whole length, and then apply a thick coat of mucilage along the smooth edges of the sheets thus pressed together. I leave the blocks standing fir-teen or twenty minutes, and again apply the faucilage, allowing it to dry thor-oughly. I think this way of blocking paper for every day use is far more satis-factory than the ordinary method of using aper binding, inasmuch as the sheets blocks of various sizes—the largest for writing extended articles; others, of smaller size, for briefer items; and others smaller still, for notes or memoranda. smaler still, for notes or memoranca. Following this plan, it is impossible for a drawer to get littered up with torn and creased pieces; and while I am writing the block will keep its position without weighting. If the pad is more than half an inch thick it is clumsy.—"M. C." in The Writer.

Streets of American Cities.

structed at Milan whose pipes are constructed of paper pulp instead of metal. It has 1,400 A writer in La Nature remarks that the and is an instrument of great power streets of American cities have been laid out with the tape line and at right angles. An English court has just decided that This, he observes, is very fine from a geometrical standpoint, but carries with it very serious consequences from an economical point of view. In fact, if we railway servants cannot eject persons from trains who say they have lost their tickets, the only remedy being to sue the passenger walk along the two sides of a square hi-stead of following a diagonal, the distance The new suspension bridge over North is increased in the proportion of 40 per cent.; that is to say, instead of walking 100 feet, we walk 140. Hence a loss of time, strength and money. Professor Haupt has calculated that the opening of two discount strength in Philadelphia river at New York, it is estimated, will cost \$37,000,000. It will give entrance to ten railroads and will be one of the great In London dressmakers and others are two diagonal streets in Philadelphia (850,000 inhabitants) would reduce the exfined heavily for allowing their girls to work over hours in the shops. Jay, the great mourning storeman, was recently up in the treme distances by one mile and a quarter. The annual number of passengers carried by the cars being 125,000,000, the total saving would reach about \$180,000 per mile traveled. The passengers would gain 3,565 years in time and would save more than 8,000,000, berse power in motive. than 8,000,000 horse power in motive power.—Scientific American.

Notice of Forfeiture.

Notice is hereby given to W. C. Smith, his administrators or those cialming under him, that the undersigned has performed the annual assessment work for the year 1887, on the Hayes mine, in Saddle Mountain mining district, Pinal county, Arizona, amounting to Sixty Six and two thirds boliars, and you are hereby notified that unless you pay your proportion of the same; to wit \$835, within ninety days after the first publication of this notice, your interest in said mine will be forfeited to the undersigned, according to law, and you will also pay for this advertisoment and all expenses incident hereto Fiorence, July 10, 1888. JACOB SCHNEIDER the time. The wife of Napoleon used to have bolling milk poured over a basinful of violet flowers, and with this decoction

Notice of Forteiture. TTO BEKNARD RODEY AND ALL OTHER

began to order great basketfuls of violets to be left at their doors daily, and this home made cosmetic is reported to be in daily use this season by thousands.—The Argonaut.

Blossoms Produce an Epidemic.

"Do you know what makes May such an unhealthy month in Atlanta?" asked a citizen. "Why it is all on account of these abominable alianthus trees. In 1878 there was an ordinance to have them all cut down and allow no more to be planted, but still they flourish and bring sickness and death. May is their full blooming time, and consequently everybody is sick during that month. The flower is rank poison to children and adults having any kind of membranous trouble."—Atlanta Constitution.
